Mary Herbert **At the Centre**

In response to the sound of *akwā's first release 'Galera EP' by Johannes Klingebiel & Julian Stetter, the artist Mary Herbert created the cover artwork for the record as well as a limited printed edition. *At the Centre* pays tribute to the EP's production, continuing the artist's 'exploration of memory and sensation' which shift 'between the recognised and the unknown'.

All prints are signed by the artist and shipped with care from the UK.

80% of the profits from the sale of the prints will go to Mary Herbert and the musicians in equal shares. *akwā will invest the remaining 20% to fund future productions.

The edition will be available from 29 January via planet-akwa.com and planetakwa.bandcamp.com
